

We here at Dôme Deco, are offering an internship for a student who is willing to fully immerse themselves into our international world of luxury Interiors. Your job will consist out of assisting our Product Manager helping to build a complete new collection ranging from furniture, to decoration to home textiles and accessories.

TASKS

- Trend forecasting
- Conceptual design on brand level
- Creating technical specification sheets for a diverse target group of manufacturers
- Actual ground-up product design within a dedicated product group
- Follow-up with both European and Asian manufacturers with regards to successful realizing prototypes and pre-production approval samples

SKILL SET NEEDED

- Trend insight
- Sketch-up skills or similar
- Feeling for applied design in interior home-concept context
- Interest in mass production incl all its challenges
- Solid knowledge and feeling with regard to materials and material combinations with regards to the home interior context

WHAT WE OFFER

- Hands-on experience with Product Design and development in a high-paced, international work environment
- A springboard to possible future employment
